PERSONAL STATEMENT

I am an enthusiastic and hardworking individual who is keen to apply my skillset within the media sector. I have an extensive experience with production hardware and software from my time studying Music & Sound Design at University. I have continued my freelance work with Vinco Sports since leaving my role at ‘aps’ where I enjoyed utilising my technical knowledge to maintain and resolve any issues with equipment whilst also mastering the equipment rental process.

EDUCATION

2022-2025 **Manchester Metropolitan University**
BA (Hons) Music and Sound Design (2:1)

- AV post-production, mixing and mastering in DAWs and FMOD.
- Using and helping others configure the studios’ Dante IP transmission system to route signals to and from control rooms.
- Utilised outboard equipment in Dante-centric studios to route signals and apply effects.
- Troubleshooted complex studio configurations digitally within the mixing desk (SSL System T S300) and physically within the studios.

2019-2022 **Grimsby Institute College**

- **BTEC: Level 1/2 Information and Creative Technology (Double Distinction*)**
- **T Level: Digital Production, Design and Development (Merit):**
  Programming in Python, PHP, SQL and HTML.
  Network structure, security and infrastructure.

2014-2019 **Oasis Academy Immingham/The Academy Grimsby**

- GCSEs (English, Maths)
- BTEC: First Award in Creative Digital Media (Merit)

CERTIFICATES

12/25–12/28 **Audinate Dante Level 1 (3rd Edition)**

- This course developed my knowledge of TCP/IP networking, alongside how Dante systems interact with this protocol. This aids me in designing, maintaining, and interacting with these systems to ensure that they are configured in an efficient way.

RELEVANT EXPERIENCE

05/26–Present **Replay Operator – Vinco Sports (Freelance)**

- Working with the graphic operator and vision mixer to coordinate the live production within the studio and the camera teams on site. Experience solving problems as they pop up during production.

08/26–10/26 **Junior AV Technician – aps Events & Media**

- Supporting the on-site teams by prepping their equipment for flying abroad, gaining experience with rental booking systems whilst also testing, maintaining and becoming deeply familiar with a range of equipment in a hands-on technical environment where I thrive. Experience programming flexible LED panel arrangements.

03/26–04/26 **Event Technician / Camera Operator – Manchester Basketball**

- Working alongside the crew to route cabling for audio & cameras, rig lighting, configure the vision mixing equipment and operate the camera during the games.

03/26–04/26 **Technical Operator (Internship) – Wavecast**

- Remote vision mixing for clients based in the US & UK, ensuring stable AV transmission and communicating with the client to ensure that they are happy throughout the broadcasting process, quickly resolving any technical difficulties during rehearsals beforehand.

10/25 **MCR Operator (Work Experience) - dock10**

- Work experience with the AV Engineers at dock10 involved collaborating within an ongoing TV production set (1% Club & Countdown). I ensured that equipment was functioning correctly (if not, we would conduct repairs). During my time here, we routed signals from studios to the correct control rooms whilst checking the health of signal paths to exterior junction boxes.

ADDITIONAL EXPERIENCE

10/21–03/22 **Web Developer Intern - Boysen B**

- As a team of five we were given a brief to create a fictional climate change website that calculated the impact that the contributions would have. This was a great opportunity to coordinate on a large technical, group project where communication was vital.

ADDITIONAL SKILLS

- Over 7 years of continuous experience using graphic (Photoshop, GIMP) & AV editing software such as Logic Pro, Davinci Resolve, Premiere Pro and Reaper.
- I enjoy soldering/DIY electronics to
- I frequently self-host my own web services on my home server, this has taught me a lot about Linux management troubleshooting, scripting and security hardening.
- Programming Experience with Python and Lua
